AICHI MUSEUM OF FLIGHT

Awakening the “aspire to fly”, and learning about experience flight

2F Top 100 Famous Aircraft

Historic aircraft are exhibited as 1/25-scale precision models.

2F Science Lab

How do planes fly? Have fun learning while experimenting, and experience crafts related to airplanes.

2F Orientation Theater

Introducing “Work inside Nagoya Airport” and “History of Aichi Prefecture’s aircraft industry” on a large-screen 3D theater.

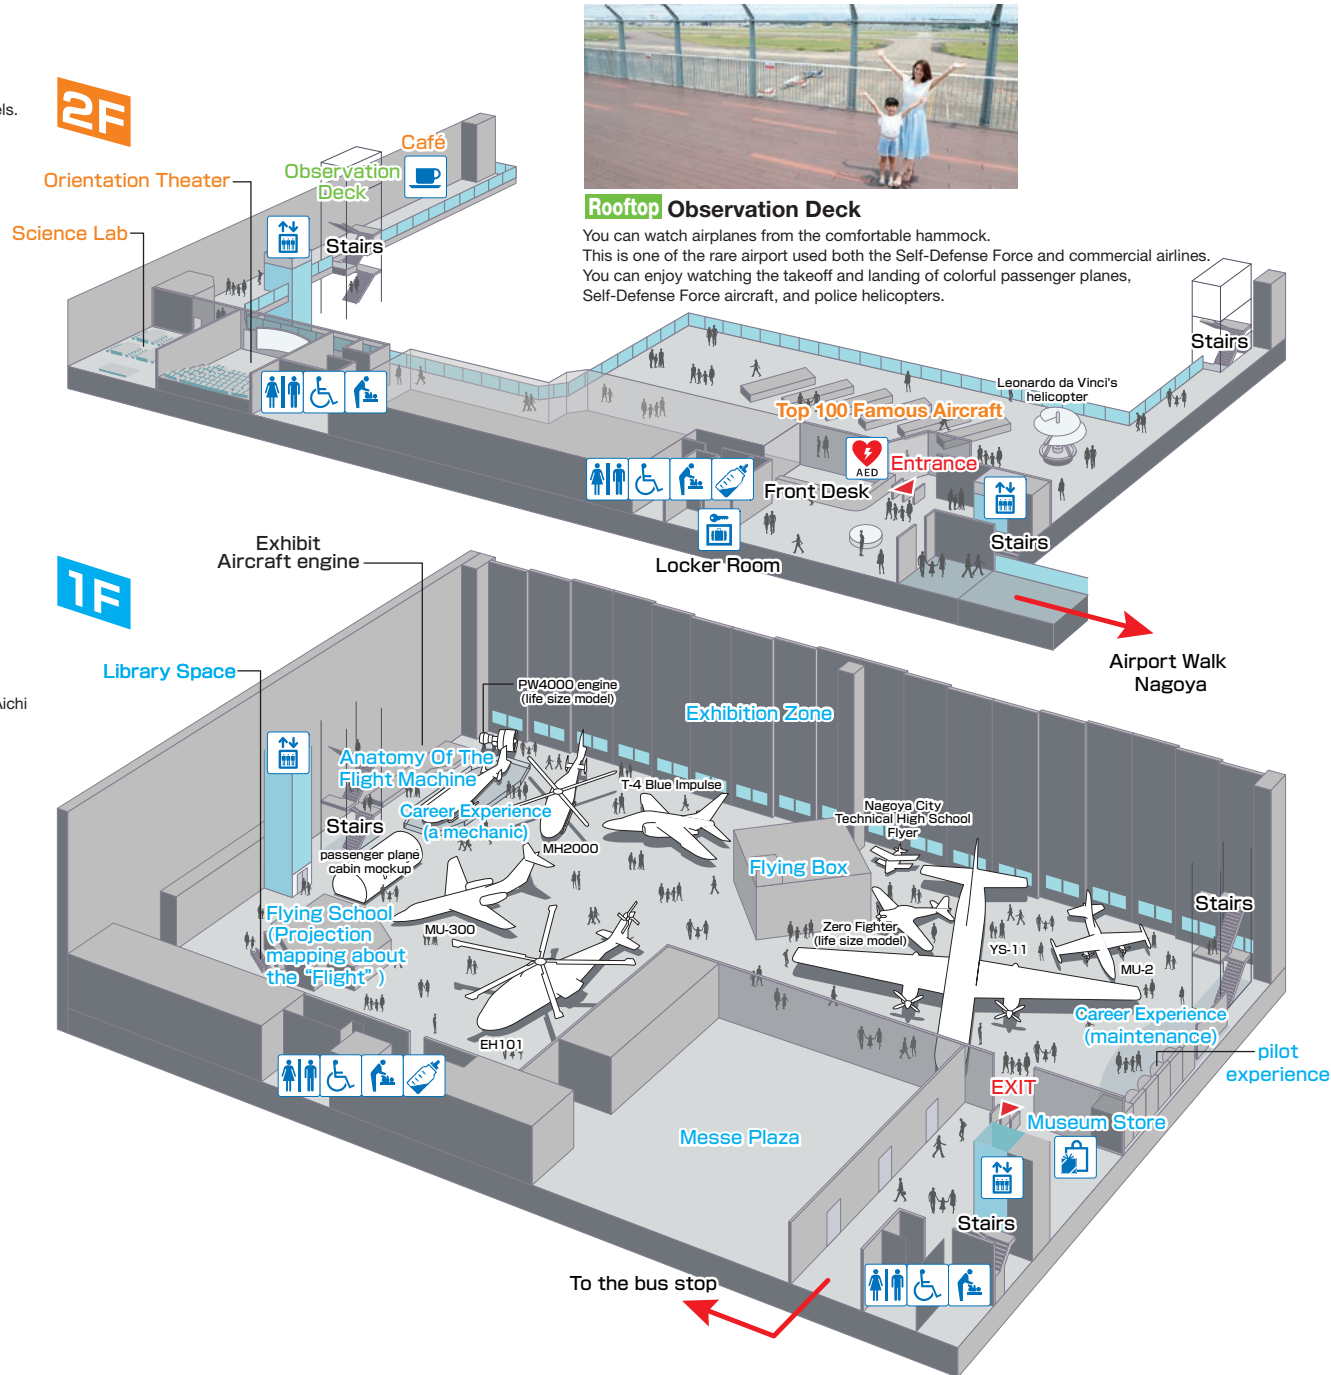

1F Flying Box

A scenic flight simulation theater where you can experience flying yourself using three large screens and a motion seat.

1F Flying School

This theater is about how to fly an airplane and details about the engine structure.

Rooftop Observation Deck

You can watch airplanes from the comfortable hammock. This is one of the rare airport used both the Self-Defense Force and commercial airlines. You can enjoy watching the takeoff and landing of colorful passenger planes, Self-Defense Force aircraft, and police helicopters.

1F Anatomy Of The Flight Machine

An aircraft engine exhibit where you can see and learn about an actual aircraft engine up close, as well as disassembled parts of an actual helicopter.

1F Exhibition Zone

Aircraft on display include the YS-11, a domestic passenger aircraft that made its first flight at Nagoya Airport, and the T-4, which was used as a special aircraft for Blue Impulse.

1F Career Experience

Experience the job of a pilot and a mechanic.
